ONAHA AND TRAIN'S CRÉD

Omaha was reminded of George Canneis Train a few days since, and is grand schemes for accumulating The occasion was the interrupted sale at anction of a large tract of land just south of town which had been purchased in 1868 by Train's famous "Credit Poncier of America," which was a sort of Credit Mobilier concern, and which has often been spoken of in The

In 1868 Train, who was then a resident of Omaha, organized a stock company of 100 persons, with shares at \$1,000 each, the members being restricted to one share each. The company was incorporated by a special act of the legislature, and its object was the purchasing of large tracts of land for the purpose of laying out towns. It was composed of European and American capitalists, with George Francis Train as President and George P. Bemis sceretary. The company made but one purchase, and that consisted of about 300 acres of ground immediately adjoining Omaha on the south. This was laid off in lots and added to the town site, when a great many of the lots were sold at very good figures. The property cost the company \$70,000, and was mortgaged to secure the payment of the purchase money, but a small part of the same being paid at the time the property was bought.

After the land had been divided into town lots Train became possessed with the idea that he was the people's choice for president of the United States, and he started out on his grand speech-making tour, leaving the management of the Credit Foncier business to the company's sceretary, Bemis, who was illowed a salary of \$1,500 and ex-penses paid. Train has never rearned to Omaha. Bemis' salary has been unpaid for several years for the reason that there were no. funds to pay him, and this spring he secured a judgment in the United States court against the company for \$11,000, and an order was issued for a sale of enough of the company's land to satisfy the judgment. The sale was advertised to come off last week, and a big crowd gathered about the United States court-reem for the purpose of bidding on the property—which is now worth double what it cost the Credit Foncier. But as before remarked, Foncier. But as before remarked, rary injunction having been obtained by Shoot-him-on the-spot Dix the banker Cisco, of New York and other prominent members of the company. It is probable that the land will be sold for the benefit of the holders of the mortgages who are the First National bank of Omaha and Samuel Rogers.

NEW YORK, Dec. 23 .- The Ponn sylvania railroad company has arranged their reduced freight rates. The rate from Philadelphia to Chicago is to be, for first-class freight, 27 cents per hundred pounds; second class, 23 cents, and third and fourth classes 18 cents; fifth class 21 cents.

The Evening Post says, a committee representing the merchants of this city in the matter of freight rates, which has lately excited so much attention, had a conference this morning with Vice President William H. Vanderbilt, of the New York Central railroad of the New York Central railroad William E. Dodge, chairman, said that while they were not met to thank the railroad for what they had done in the matter, they wished to have it distinctly understood that they had no sympatory with the said ly understood that they had no sympathy with the low prices which the rail was still tolerated was but an amiable.

We she need were would have been more gratified if the provincialism. We the people were Boston rates had been raised. It was for the interest of merchants that rail reads should receive fair compensation in order that the latter might pay reads is to nail up all the States that attempt in order that the latter might pay reasonable dividends and be able to expend to assert their poppyeack sovereignty money for the improvements of their with National bayonets, just as has facilities. Vanderbilt thanked the more facilities. Vanderbilt thanked the morchants for their expressions of good foeling, and then read a letter from Col.

Of States, as the phrases are used by Mr. McDonald, is that in the great Scott, of the Ponnsylvania road, giving American war the rebellious States the accomplished settlement of the rates as a reason for his non-attendance, ment wrong. It is all nonsense and

> SPHINGFIELD, ILL., Dec. 23.-Some more of the Pekin crooked whisky crow came to grief to day. G. R. Cobleigh was arraigned before United States Commissioner Adams, charged with having willfully destroyed the books McDonald is not striving to frame exwhich he, as a rectifier, was required by law to keep. He waived examination, and gave bail in \$1,000 to appear at the next term of the United States District Court.

CHICAGO, Dec. 23.—Though there has been no actual reduction in the rates east since . the reduction 'in the east, there is a gradual weakening, and it is probable that in a few days the combi-Trunk Railway to day, made several contracts for meats at \$5 cents through to Liverpool, while the combination price is 971 cents. It is also surmised that they were taking at less, than combination rates on corn to England as it is known they have made some large contracts in that direction. The feeling among merchants against the pool 4 o'clock, P. M. lines for discriminating against Chicago is very bitter.

HAVANA, Dec. 23.—A report is current that Wm. M. Tweed arrived here last Tuesday, on a schooner. Several New Yorkers, who know him by sight, say they saw him in different purts of the city, yesterday.

> STATE SOVEREIGNTY. Cincinnati Commercial,

Senator McDonald, of Indiana, slops over suddenly about State sovereignty. He has found it so important to answer Senator Morton's resolutions declaring that these United States constitute a Nation, that he rushes into print with the rough draft, "though the er than ever, on sale now at phraseology may be changed somewhat before their presentation to the Senate.' The resolutions are, therefore, before the people and should receive consideration. Senator McDonald goes through the old wearisome twadd o of the secessionists about State rights-twaddle always associated with the sale of yellow babies at auction, and the assertion of the prerogative of any "State" to break up the Union. We have not time to follow him through all the old blood-stained platitudes and sophisms,

"Resolved, That, as the States were at the time of the formation and adoption of the Federal Constitution each sovoreign, free and indopendent, ecce, t in so far only as such sovereignty had been expressly delegated to Congress by the articles of confederation, the rights reserved to the States and to the people in the formation of the Federal Government were sovereign rights, which cannot be impaired without usurpation, and that the only sale way in which to administer the Federal Government with respect to the rights of the State and people is in a strict construction of the Federal Constitution and the amendments thereto, and the assumption of no doubtful powers."

its exercise to more domestic and local CINCINNATI, Dec. 23.—A large importance or the right of self-governonly. Municipalities have that as well as States, and there is as much sense right of a State to seede from the Union was not reserved; and that "so for as the right has been claimed to oxsion was not reserved, the State rights pomp of phrasoology is loolishnessand the resolutions introduced by Senator Morton are superior to those of McDonald in all qualities that should From the Imperial Academy of Arts, Paris commend them to sensible men. The Poultry Show .- The attendance at the poultry exhibition yesterday was largely in excess of the day before, and to-day will witness an increase upon yesterday. In response to a general wish, the show will be kept open through to-morrow, and as exhibitors from a distance have consented to let their birds remain, the collection will be as full and as interesting as on any previous day. Every person who has been in becomes at once an advertiser of the merits of the exhibition. The attendance thus far has been quite satisfactory, and this afternoon and te-morrow it will probably be larger than yesterday.

The town is full of people drawn here for making their Christmas purchases. and they will avail themselves of the opportunity to pay the show a visit.

We again call attention to the fact that the hall is kept open evenings for the purpose of giving those who cannot attend during the day a chance to do so that the place may be crowded to-morrow. Premiums will be published next

New Years Calls .- The pleasant custom of making New Years calls will be more generally observed this year than ever before. We are making arrange- Judgment for Kramer against Aboliz, ments to publish the names of those ladies who intend to "keep open house" on that day, which list will appear in our paper of Friday. Many annoying docket. mistakes may be prevented by thus making public the names of those who intend to receive callers on that day, and we shall be pleased to print the names of all who will be good enough to inform us of the fact.

Public Library Notice. - The Library will be closed during Christmas Day. By order of the President, Jos. Mills. R. L. Evans, Librarian.
